

2010 *Water Plants & Supplements*  
*Ebert's Greenhouse Village*

**5" Containers Marginals**

**5" Containers Water Lilies**

**Floaters & Floating Oxygenators**

**8" Aqua Basket Planters**

**16" Patio Starter Kit**

**Marginals** (Marginals grow along the waters edge and can be slightly submerged)

**Alternanthera 'Raspberry Swirl' (Alligator Weed)**: Brilliantly variegated foliage in shades of red, pink, and white. A colorful addition to any container, or the edge of a pond. **Annual – Hardy to Zone 8.**

**Caltha palustris 'Multiplex' (Marsh Marigold)**: First pond plant to bloom. Beautiful double yellow flowers in spring and summer. Round deep leaves with serrated edges. Hardy perennial, but may go dormant in late summer. **Perennial – Zones 3-10.**

**Cyperus alternifolius 'Gracillus' (Dwarf Umbrella Palm)**: Umbrella-like whorls of green foliage. Graceful slender plants with delicate thinly leaved flower heads. Gives water gardens a tropical appearance. **Annual – Hardy to Zone 9.**

**Cyperus papyrus percamenthus (Giant Dwarf Papyrus)**: This new introduction has super large tufts to top the foliage like Egyptian papyrus, yet plant stays compact all season long. Stiff triangular stems. **Annual – Hardy to Zone 9.**

**Equisetum japonica (Horsetail)**: Looks like modern art. This tall, slender, bamboo-like bog perennial grows up to 60" in height. The hollow stems have a rough surface and remain evergreen. **Perennial – Zones 2-10.**

**Iris Louisiana 'Mix' (Louisiana Iris)**: Large flowers of different colors which bloom in late spring. Easy to grow. **Perennial – Zones 4-10.**

**Iris Versicolor (Blue water Iris)**: Narrow grey-green leaves, foliage at the base has a purplish tint. Mixed flower colors. Shade tolerant. **Perennial – Zones 4-10.**

**Juncus effuses 'Spiralis' (Corkscrew Rush)**: Hardy perennial that has curious spiraling cylindrical leaves. Creates an unusual focal point in the water garden. **Perennial – Zones 3-9.**

**Lindernia grandiflora (Blue Moneywort)**: If you're looking for continuous flowers, this is it. Small blue flowers cover the plant all growing season on this creeping plant. **Annual – Hardy to Zone 7.**

**Lysimachia cong. 'Outback Sunset'**: Yellow and green foliage with yellow bell-shaped flowers that have red centers and bloom throughout the summer. **Annual – Hardy to Zone 7.**

**Myosotis scorpioides (Blue Water Forget-Me-Not)**: Scrambling plants have fuzzy leaves and are loaded with blue forget-me-not flowers in spring and early summer. **Perennial – Zones 3-8.**

**Pontederia cordata (Purple Pickerelweed)**: Shiny deep green lance-shaped leaves and purple-blue sage-like flower clusters. Shade tolerant. **Perennial – Zones 3-9.**

**Pontederia cordata 'Pinkpons' (Pink Pickerelweed)**: Same as Purple Pickerelweed, but with pink flowers. **Perennial – Zone 5.**

**Ruellia brittonia 'Chi Chi' (Pink Bellflower)**: Narrow lance-shaped leaves with stems of pink petunia-like flowers all summer. **Annual – Hardy to Zone 8.**

**Thalia dealbata (Hardy Water Canna)**: Purple flowers clustered in bracts on top of graceful stems. Large blue-green leaves. **Do Not** allow crown to freeze in winter. **Perennial – Zone 5.**

**Thalia geniculata Ruminoides (Red Stemmed Water Canna)**: The absolute best water plant for the pond or patio pot. Red stems with funky foliage. **Annual – Hardy to Zone 7.**

**Thypha latifolia 'Variegatus' (Variegated Cattail)**: Green and white striped leaves with brown cattails. Slower growing and less invasive than other varieties. **Perennial – Zones 5-9.**

**Thypha minima (Miniature Cattail)**: Miniature version of the regular cattail, but much smaller with round 1" little cattails. Great for smaller ponds. **Perennial – Zones 3-9.**

**Wedelia trilobata (Water Zinnia)**: Tropical bog plant with glossy, dark green leaves and yellow Zinnia-like flowers which bloom throughout the whole summer. Low spreading habit. **Annual – Hardy to Zone 9.**

**Oxygenators** (Oxygenators add oxygen to the water for fish and help maintain a healthy balance to your pond)

**Hippuris vulgaris (Maretail)**: Hardy perennial oxygenator and submerged plant. Foliage looks like little pine trees sticking out of the water. **Perennial – Hardy to**

#### **Zone 4.**

**Ceratophyllum demersum (Hornwort)**: Bright green leaves of coarsely feathered whorls. Provides oxygen and clarifies the water.

**Elodia canadensis (Canadian Waterweed)**: Graceful multi-branched stems of medium green leaves. Can be planted or left to float.

**Myriophyllum aquaticum (Parrot Feather)**: Soft feathery grayish leaves.

**Floaters** (Floaters provide shade and shelter for your fish, along with helping keep the water clean and slowing algae growth)

**Eichornia crassipes (Water Hyacinth)**: Free floating tropical plants with light blue flowers in mid-summer.

**Pistia stratiotes (Water Lettuce)**: Spiraled green velvety leaves, resembling lettuce, float on the water's surface.

**Hardy Water Lilies** (Prefer still water, where flowers can last up to 4 days. Start close to surface and slowly drop to 24" deep under the surface for winter hardiness.)  
**Perennial – Zones 4-10.**

**Nymphaea 'Pink' (Pink Water Lily)**: Pink Water Lily.

**Nymphaea 'Purple' (Purple Water Lily)**: Purple Water Lily.

**Nymphaea 'Red' (Red Water Lily)**: Red Water Lily.

**Nymphaea 'White' (White Water Lily)**: White Water Lily.

**Nymphaea 'Yellow' (Yellow Water Lily)**: Yellow Water Lily.

**Aqua Basket Combinations** (Pre-planted deluxe combination containers)

**8" Cyperus (Papyrus) Basket**

**8" Juncus 'Spiralis' (Rush) Basket**

*Patio Starter Kit* (Each kit contains a 16" bowl and a planted 8" basket with 2 marginals, 1 waterlily, and 1 oxygenator. Simply place planted basket in bowl, fill with water and add fish. Instant patio water garden!)

### **16" Patio Starter Kit**

### *Miscellaneous Hardware*

**Aqua Basket Hooks (Set of 2)**  
**8" Square Hooks for 8" Planted Baskets**

### *Pond Supplements & Chemicals*

#### **Microbe-Lift Products (All EPA Registered)**

**Microbe-Lift Barley Straw Extract + Peat:** Specially formulated to naturally balance pond water and improve clarity. Includes peat to help maintain an ideal pH level in the pond. Also helps deter algae growth.

**Microbe-Lift Bloom & Grow:** Highly concentrated formula containing micro and macro nutrients. Nitrate and phosphate free. This is not a fertilizer, it is a nutrient supplement.

**Microbe-Lift Calcium Montmorillonite Clay:** Specially formulated for pond clarity and Koi health, growth and color. A must if you have Koi in your water feature.

**Microbe-Lift Ensure:** Ensures a healthy start for plants and reduces transplant shock. Encourages better root and blossom development and healthier overall plant growth.

**Microbe-Lift Fish Protectant:** A mild treatment to help protect against parasites, harmful bacteria, and environmental stresses. Reduces the possibility of infection or re-infection. Double slime-coat protection.

**Microbe-Lift Green Clean:** Immediate filamentous or 'String' algae control for fountains, ornamental ponds, and water gardens. Helps keep water clean and clear.

**Microbe-Lift OX:** Use for immediate and continuous release of oxygen in overloaded pond systems. Improves dissolved oxygen levels and is safe for humans, wildlife, and

aquatic life. A constant source of oxygen is essential if aquatic life is to function properly.

**Microbe-Lift OXY Pond Cleaner**: Uses the power of oxygen to safely, yet immediately, break down accumulated debris on rocks, streams and water falls. Helps prevent odors. Cleans decks, planters and lawn furniture too.

**Microbe-Lift PL**: Seeds and maintains biological filter which creates a cleaner environment for your pond, improving plant and fish health, growth, and longevity. Helps dissolve away organic sludge and reduces cloudy water and nitrate levels.

**Microbe-Lift Sludge Away**: Formulated specifically for the removal of organic bottom solids that are slow to degrade. Works 80% faster than other competitive products. Helps improve pond clarity. 100% natural active ingredients.

**Microbe-Lift Spring/Summer Cleaner**: Helps jump start your pond in the spring by breaking down the buildup of dead leaves and organic sediment.

**Microbe-Lift Thera P**: Biologically supports the fish's immune system. Improves fish health, growth, and longevity. Reduces environmental stresses.

## **Aquascape Products**

**Aphid Repel**: Keeps aphids and most insects from inhabiting most aquatic and terrestrial plants. 100% safe and environmentally sound.

**EcoFloc**: The fastest way to clear cloudy, murky, or dirty pond water by making suspended particles attach together and sink to the bottom.

**EcoTabs**: Feeds aquatic plants for up to 45 days. 15-5-10 nutrient mix. Low phosphorus ratio helps keep water clear.

**EcoX Fungus Control**: Formulated for fish health. Highly effective against many fungal diseases fish experience.

**Foam Away**: Completely removes foam from any water feature. For use in ponds, fountains, and statuary. 100% natural and safe for plants and wildlife.

**SAB**: Helps eliminate string algae and maintain a healthy pond by promoting the growth of beneficial bacteria and enzymes.
